

HOME ECONOMICS

Practical Cookery

H/W 7

Kitchen Safety

1 (a) A two year old has drunk some household bleach.
What first aid should you give the child?

(b) What should you do next?

(c) What should you **not** do?

2 (a) When taking a casserole from the oven, some hot liquid spills and scalds your hand. What should you do first?

(b) Why?

(c) What would you use to safely remove a hot dish from the oven?

3. A chip pan has gone on fire. What should you do?

1.

2.

(b) Give a reason for each action.

1.

2.

(c) What must you **not** do if a chip pan goes on fire?

Why?

4. On the back of this sheet, write down 5 rules for safety in the Home Economics room.
